

Southern California Cat Adoption Tails

A Non-Profit 501 (c)(3) Organization

20/20 CLUB monthly e-news for our special members

What is the 20/20 Club? It's simple... for a donation of just \$20 each month, you can support 20 animals in need. That's roughly four Starbucks cappuccinos, less than lunch out for two, and far less than movie and popcorn for one! How can you say "no" to these faces? Especially when your \$20 monthly donation supports so many furry friends!

Chubby Chihuahua **Spud** thinks he's a part-time throw

pillow and has a black belt in the ancient art of lap sitting.

With a loving, in-your-face personality, **Ace** is a long-time rescue with a passion for kibbles and poker.

Hilly, also called "Hollywood," is a laid-back, fat cat from the Hollywood Hills who is about to make his red carpet debut at adoptions.

Molderac is a silly orange and white Persian cat with one crazy hairdo. She loves to hang around doing lion impressions.

Six year-old Basset Hound mix **Amy** loves to cuddle up on the sofa watching *Lassie* reruns with a big bowl of ChexMix.

Go to www.catadoptiontails.org and click on JOIN 20/20 CLUB, donate \$20 via our PayPal link, and every month we'll send you a newsletter with news about your 20 adopted animals.

PLEASE HELP—join us in making a difference!

Minerva is a shy, loving long-hair tortoiseshell with slightly impaired eye-sight but a super loving nature.

Chuck Norris has a tough-guy face but he's all teddy bear—he likes hanging out with you and his friends.

Tom (left) and **Jerry** (right) are brothers who came to us as feral kittens—so we can't fence in these outdoor, nature-loving siblings!

Chelsea is a gentle, FELV-positive sweetheart who enjoys sunshine, long naps, walks on the beach, and her loving foster parent, Mark.

Material Girl Madonna is a tough one-eyed lady, but she's *Crazy for You* and can *Celebrate* with the best of 'em.

Tootsie is a Beagle mix who likes to cuddle in bed and is a wonderful dancer.

Suffering from a chronic skin condition that prevents her from growing a silky coat, **Lizzy** proves it's beauty on the inside that really counts.

When **Radio** came to us, she was more mat than cat. But a generous donation afforded her a first-class grooming, showing her true beauty.

With a chronic respiratory issue, sweet tabby **Theo** snuffles. No worries, he always carries tissues.

Wonderful **Wiggles**, a Carrion-Terrier mix born with

water on the brain, can't walk straight or see well, but you won't find a happier pup!

A people-loving tabby, **Toby** was rescued with a severe respiratory infection that sadly cost his left eye and cut short his promising career as an impressionist painter.

We've all fallen in love with **Cupid**—a small dog with a big attitude!

Ms. Cookie Face is an awesome feline with a backwards leg. Don't tell her... she thinks other cats have got it wrong.

Sapphire, a flame-point Siamese, had five babies after coming to us—all doing well!

Julia's Extraordinary Measures

Hope

Just one of the things we all love about **our incredible founder, Julia Mildenberger**, is her big heart and bigger love for animals—she's always going to extraordinary measures to rescue four-legged friends in distress. This month, **Julia rescued 8 kitties, all testing positive for FELV.**

What is FELV? Let's start with **FELV is NOT feline leukemia**...that's an old, incorrect assumption. FELV is actually an immune system disease and kittens can get it from their moms while *in utero*.

Yes, FELV can be transmitted to other cats—but not to humans or dogs, so **it is important that FELV cats live only with other FELV cats**. And even though attention needs to be focused on keeping these special kitties healthy, many FELV cats live normal lives and become loving, long-time members of the family.

Hope, Oreo, Oscar, Flower, Holly, Shadow, Tabitha, and Sippy need your help! Julia needs people without cats who can adopt these beautiful kitties in pairs (so they'll never be alone). **CAN YOU HELP?**

Please contact us immediately at www.catadoptiontails.org.
