Love is by Chance...

Dear SCCAT Friends:

This week's story is just one example of the extraordinary efforts by Julia and her team each week to save every precious life possible.

Julia was on her way home from weekend adoptions at the Pasadena Petsmart when she got a call from her neighbor. **A little white dog had been hit by a car** in front of the SCCAT rescue and the neighbor thought it could be one of our dogs. No, but the little dog was badly hurt and Julia asked her to rush it to our vet.

Our vet didn't think the little dog would survive and life-saving can be very expensive. But **Tricia Wimsatt stepped forward** and donated the money to try to save his life. Not an easy feat. This precious little baby had a **punctured lung, unexplained images in the x-rays, possible internal bleeding, and some broken bones in his back legs.**

This little guy was such a true fighter that **we named him Chance.** Every day Chance got a little stronger until finally, he lifted up his head and was interested in what was going on around him. Even better, **he began eating** everything that the ladies at the vet's office gave him. Chance was ready to go home.

Chance is still very sore and walks slowly, but is getting better.

Right now, **Chance needs a foster home** for a place to recuperate. He is a sweet, gentle, loving, quiet little boy.

If you are interested in becoming a **foster home** or **adopting Chance**, please call or text 1-818-943-1601 or email catadoptiontails@aol.com.

*We'd like to especially thank the very generous Trisha Wimsatt
—without her help, Chance would not be alive today.*
